ClearlyIP was launched with the goal of becoming an industry-leading company in telecommunications software, infrastructure, services and cloud. Our solutions were built on the premise of delivering telecom solutions to our customers in several critical areas:

- » Modern architecture and infrastructure stability
- » Secure connectivity while protecting enterprise voice traffic
- » Enabling productivity and empowering a collaborative-driven organization.

ROI Focused
Return-on-Investment focused framework to help reduce overhead and drive increased profits.

Relationship Based
A comprehensive approach to data collection, analysis, and usage that is built around a strong focus on relationships.

Decades of Experience
A dedicated team of telecom experts and professionals with over 100+ years of combined industry experience.

Thorough Onboarding Program
A unique white glove experience with an all inclusive personal service approach.

Highly Trained Support Team
Skilled workers with diverse telecom experience who are experts at their job, and this means improved productivity for your business.

ClearlyIP's
Suite of Services

CLEARLY CLOUD

Clearly Cloud is a feature-rich unified communications solution that offers a suite of powerful services. Clearly Cloud is available for businesses of all sizes, and the platform is intuitive to use with endless features and benefits.

COMXCHANGE

Setting the new standard in hospitality phone systems, ComXchange is a reliable, adaptable, enduring PBX solution for hoteliers looking to enhance their guest experience, ensure their safety, and streamline operations. Available as on-premise or hosted.

ON-PREMISE PHONE SYSTEMS

Phone systems designed to meet a customer's many needs. Creating powerful solutions, while still keeping costs low. ClearlyIP phone systems are compact and space-saving and allow you to control access to your hardware.

SIP TRUNKING

ClearlyIP Trunking Service utilizes your own internet bandwidth to route your business calls instead of using expensive traditional analog phone lines or T1/PRI connections. We provide features that enable your organization to be Kari's Law and Ray Baum Act compliant!

SENDFAX.TO

Clearly the easiest way to send a Fax from virtually anywhere, on any device! Enjoy the best of both worlds- virtual and physical faxing without the overhead of a physical line. High volume, low volume, and metered subscriptions available. No per page or per-user fees!

CIP IP PHONES

All Clearly IP phones are designed to be rebrandable and work with your favorite SIP based PBX or softswitch and can be easily provisioned free of charge using the ClearlyIP Device Manager software or the Clearly Devices module for FreePBX® based systems.

CODEX

CodeX allows administration to set up groups of phones. Those groups can then be selected if an emergency arises, and a CodeX can be initiated. This will broadcast a prerecorded message to the selected groups. Upon hearing the announcement, a PIN code must be entered within a limited time, either marking the room safe, unsafe, or unreported.

CLEARLY ANYWHERE

Clearly Anywhere is a feature-rich mobile and desktop softphone with tight integration for FreePBX® based systems. Enjoy limitless communications with ease of use to make and receive telephone calls over the internet on your computer or smartphone. Clearly Anywhere can be installed on a laptop, tablet or smartphone.

VOIP GATEWAYS

With ClearlyIP gateways, you can take advantage of VoIP, and still use your existing analog phones. Upgrading to a modern VoIP network can benefit your business and ClearlyIP offers several options for gateways, that serves as an interface between traditional analog or digital telephone systems and VoIP networks.
